

The Just Right Game

STUFF EVERYONE SHOULD KNOW

How to play (30 seconds)

1. The reader reads a card and its three answers out loud.
2. Everyone says "One, two, three, Goldilocks!" and holds up 1, 2, or 3 fingers.
3. The reader flips the card and reads the answer and the Why.
4. Everyone who was right takes a point.
5. The reader reads the joke with a straight face. Anyone laughs or groans? The reader takes a point. Nobody got it right? The reader takes a point.
6. Pass the deck left. Most points when the points run out wins.

What you need

These cards and the point tokens on the last two pages. No tokens? Use coins, buttons, pebbles, or marshmallows. 3 to 10 players, ages 8 and up.

Expert rule: Bet It

Before the reader flips the card, you may put one of your points on your answer. Right: take your normal point plus one extra. Wrong: your bet goes back to the pile. That's it.

Printing

Print single-sided, on cardstock if you have it. Cut on the dashed lines. Each card is a 3.5 x 5 inch index card. The answer half is upside down on purpose, so the table can't peek.

Why did the turkey join the band? Because it had the drumsticks.

B Within 2 hours
WHY Bacteria multiply fastest between 40°F and 140°F. After 2 hours at room temperature, or 1 hour above 90°F, it belongs in the trash, not the fridge.

SAFETY & FIRST AID

How often do you replace the smoke alarm itself, not just the battery?

- A** Every year
- B** When it stops chirping
- C** Every 10 years

Why did the firefighter wear red suspenders? To keep his pants up.

C Every 10 years
WHY The sensors wear out with age. Replace the whole alarm every 10 years and push the test button once a month. The date it was made is printed on the back.

CARS & DRIVING

It's 25°F outside. How long do you warm up a modern car?

- A** About 30 seconds, then drive gently
- B** Let it idle 10 to 15 minutes
- C** Scrape a peephole in the frost and go

I couldn't figure out how my seatbelt worked. Then it just clicked.

A About 30 seconds, then drive gently
WHY Modern engines only need about 30 seconds. Driving gently warms the engine faster than idling, which just burns gas. But clear every window before you go.

OUTDOORS & CAMPING

You're lost on a hiking trail. What do you do?

- A** Head downhill, because streams lead to roads
- B** Stay put, hug a tree, and blow three whistle blasts
- C** Climb to high ground to get a look around

How do trees get on the internet? They log in.

B Stay put, hug a tree, and blow three whistle blasts
WHY Searchers start along your planned route, so staying put makes you easier to find. Hugging a tree keeps you calm and in one place. Three blasts means "I need help," and a whistle carries farther than your voice.

OUTDOORS & CAMPING

A thunderstorm chases you away from the campfire. When is it safe to go back out?

- A** 30 minutes after the last thunder
- B** As soon as the rain stops
- C** When you can see blue sky again

What does a cloud wear under its raincoat?
Thunderwear.

WHY Lightning can strike up to 10 miles from a storm, even after the rain stops. Wait 30 minutes after the last thunder. Tents and picnic shelters don't protect you; a building or a hard-topped car does.

A 30 minutes after the last thunder
